

Tess Bishop
Software Engineer

Salt Lake City, UT 84102 | (801)-330-5953
<http://www.github.com/tbisho> | tess.bishop8@gmail.com
<https://www.linkedin.com/in/tessbishop/>

As a recent software engineering graduate I bring an accelerated learning style and ambitious creativity to design and support software that I love. I have the ability to connect and communicate with customers to understand software complexities in order to resolve problems.

Programming Experience

Software Engineering Immersive Program

Sept 2020- Dec 2020

**Project III - BetterCupid | Back-end: <https://github.com/astudillome/BetterCupid-pern-auth-backend>
Front-end: <https://github.com/astudillome/BetterCupid-pern-auth-frontend>**

BetterCupid is a PERN stack application that allows non-logged in users to view dating profiles. A logged in user is able to edit their profile and match and unmatched with other users. If a user is not 18 years old they are unable to access the site.

- A Full Stack Single Page Application that communicates with an Express backend
- Three models that have a relationship to one another including a one-to-one and one-to-many
- Secure log-in with Passport JS Authentication
- Technologies used: React, Express, Node.js, Git and Github, Postgres, Sequelize, OAuth with Passport JS, Bcrypt, Draw.io, CORS

Project II - Snack Overflow | <https://github.com/tbisho/snack-overflow>

Snack Overflow is a “fullsnack” application designed for snack enthusiasts. The goal of this app is to allow users to log in and create an account to view their favorite snacks and add photos and details to their profile.

- Fullstack Express Application that responds with server-rendered HTML
- RESTful routing and full CRUD functionality
- Persists with three models to a Postgres database
- Uses Bootstrap CSS Framework

Education

General Assembly, Seattle WA

Software Engineering Immersive Program

Sept 2020 - Dec 2020

Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

Temple University, Philadelphia PA

May 2012

Bachelor of Arts in Advertising

Relevant Professional Experience

Sales Representative with Powderbird Heli Skiing

December-April 2019

- Active listener with customers to sell experiences worth up to \$45,000
- Manage retail displays resulting in an increase of inventory sold
- Detail oriented while planning details of 'bucket list' trips for high-end clients

Outcomes Producer & Local Marketing with General Assembly

November 2013-March 2016

- Developed relationship between students/job seekers to help 150+ students secure jobs
- Created an inventory of over 200 employer contacts who were able to contribute to the success of hiring graduates
